

Weekly Online Meetings

- 45-60 minute video sessions each week. Students pitch ideas, learn a new skill, practice, and share finished work. No travel required.

Real Episodes From Day One

- A 6-week Rapid Pipeline Sprint gets every student from first recording to a real published episode in the first month.

A New Episode Every 4-6 Weeks

- The club publishes regularly. About 7-10 real episodes are made across the year with the goal of improving our skills and making each one better than the last.

In-Person Meetups (Optional)

- The club gathers every couple of months in Saskatoon or another campus, with hands-on time using real studio and portable recording gear.

Skills You'll Build

Interviewing	Scriptwriting	Editing	Storytelling	Sound/Visual Design	Publishing
--------------	---------------	---------	--------------	---------------------	------------
